The major driving force here is evolution and progress in the technological and innovation front and an interesting thing to note here is, India is not lacking behind in this regard. It is the 3rd largest consumer for ceramic tiles in the world.

This gracious growth rate has been observed due to the immense popularity of tiles as decor element and that has happened because of availability of unique and distinctive tiles. One of the key players for driving this innovation is Oasis. At Oasis, growth is fueled by dreams and desires.
